COMPANY PROFILE

Founded in 2013, Attractions Factory is an international manufacturer of amusement attractions and animatronics for theme parks and family entertainment centers. What began as a small production for our own operations has grown into a company supplying attractions worldwide.

We specialize in the design, engineering, and production of funhouses, mazes, animatronics, rope parks, themed parks, and interactive attractions.

Our production is based in Poland, with cooperation across several specialized factories to ensure high quality and flexibility. Innovation is

at the core of our work. Amusement attractions combine mechanics, electronics, programming, and design, and we continuously improve our products to meet modern market demands.

Our R&D team develops new models based on years of experience, current trends, and customer needs. All attractions are fully assembled and tested before delivery.

Quality and safety are our top priorities. Our equipment complies with European standards, including EN 13814, and meets international certification requirements. In 2024, Attractions Factory is undergoing TÜV Rheinland certification.

Today, our attractions operate in more than 30 countries across Europe, the Middle East, and Asia.

We regularly participate in leading international exhibitions such as IAAPA, DEAL, and SEA, strengthening our global presence and partnerships.

We view every project as a long-term partnership, offering full support from concept and customization to installation and service. With an experienced team and a focus on reliability, innovation, and creativity, Attractions Factory delivers safe, modern, and memorable entertainment solutions.

Description.....bricks
Options.....none

LED strip tube

AF 34

Material.....LED & plastic
Weight.....10 kg
Dimensions.....50x50x2000
Energy consumption.....variably
Description.....LED tube
Options.....none

Path: Tetris

AF 39

Material.....steel
Weight.....110 kg
Dimensions.....3000x2400x1000
Energy consumption.....none
Description.....metal platform
Options.....none

Platform: "Target"

AF 35

Material.....steel
Weight.....110 kg
Dimensions.....1500x2400x300
Energy consumption.....none
Description.....pins
Options.....spring/without spring

Air explosion

AF 40

Material.....steel
Weight.....110 kg
Dimensions.....1500x650x300
Energy consumption.....0,35 kW
Description.....air exploison
Options.....none

Trap AF 41

Material.....steel
Weight.....90 kg
Dimensions.....600x750x2000
Energy consumption.....0,25 kW
Description.....spinning cylinder
Options.....A-tipe/B-tipe/C-tipe

Wooden footbridge AF 46

Material.....steel
Weight.....60 kg
Dimensions.....3000x650x170
Energy consumption.....none
Description.....bridge
Options.....none

Labyrinth of bags AF 42

Material.....PVC
Weight.....30 kg
Dimensions.....600x600x2000
Energy consumption.....none
Description.....punching bag
Options.....A-tipe/B-tipe/C-tipe

Suspended net AF 47

Material.....nylon
Weight.....110 kg
Dimensions.....3000x650x300
Energy consumption.....none
Description.....nylon mesh
Options.....none

Jumping and roller AF 43

Material.....metal
Weight.....11 kg
Dimensions.....1200x1200x3000
Energy consumption.....0.35 kW
Description.....roller
Options.....none

Glowing plate AF 48

Material.....LED & plastic
Weight.....10 kg
Dimensions.....1200x500x80
Energy consumption.....none
Description.....glowing plate
Options.....none

Surf with bugs AF 44

Material.....PVC
Weight.....15 kg
Dimensions.....350x350x850
Energy consumption.....none
Description.....punching bag
Options.....none

Musical steps AF 49

Material.....steel & plastic
Weight.....110 kg
Dimensions.....3000x650x300
Energy consumption.....0,35 kW
Description.....wooden bridge platform
Options.....none

Pillow AF 45

Material.....PVC
Weight.....20 kg
Dimensions.....variably
Energy consumption.....none
Description.....pillow
Options.....color

Bumps on springs AF 50

Material.....steel & plastic
Weight.....110 kg
Dimensions.....3000x1200x1000
Energy consumption.....none
Description.....bumps on springs
Options.....none

Mirror maze AF 51

Material.....glass&wood
Weight.....1000 kg
Dimensions.....10000x1000x2500
Energy consumption.....1-3 kW
Description.....mirror maze
Options.....color

Oscillating roller footboard AF 52

Material.....steel
Weight.....110 kg
Dimensions.....3000x650x300
Energy consumption.....0,75 kW
Description.....roller footboard

Warped mirror AF 56

Material.....glass
Weight.....90 kg
Dimensions.....2100x1000x3-6
Energy consumption.....none
Description.....warped mirror
Options.....none

Translational floor platform AF 53

Material.....steel
Weight.....30 kg
Dimensions.....1200x1200
Energy consumption.....floor platform
Description.....fire pole

Platform: "Circles" AF 57

Material.....steel
Weight.....10 kg
Dimensions.....300x300
Energy consumption.....none
Description.....obstacle pods
Options.....none

Elastic rope maze AF 54

Material.....nylon & steel
Weight.....80 kg
Dimensions.....3000x2000x1000
Energy consumption.....none
Description.....elastic rope maze
Options.....none

Platform: "Casino" AF 58

Material.....steel
Weight.....10 kg
Dimensions.....300x300
Energy consumption.....none
Description.....obstacle pods
Options.....none

Vortex tunnel AF 55

Material.....steel
Weight.....110 kg
Dimensions.....2000x2000x3000
Energy consumption.....1 kW
Description.....vortex tunnel
Options.....none

Platform: "Mouse" AF 59

Material.....steel
Weight.....10 kg
Dimensions.....300x300
Energy consumption.....none
Description.....obstacle pods
Options.....none

Platform: “Brick” AF 60

Material.....steel
Weight.....10 kg
Dimensions.....300x300
Energy consumption.....none
Description.....obstacle pods
Options.....none

Roller Balance Track AF 65

Material.....steel
Weight.....110 kg
Dimensions.....3000x650x300
Energy consumption.....none
Description.....roller balance track
Options.....none

Platform: “Tetris” AF 61

Material.....steel
Weight.....10 kg
Dimensions.....300x300
Energy consumption.....none
Description.....jump pods
Options.....none

Roller Valley AF 66

Material.....steel
Weight.....100 kg
Dimensions.....3000x650x300
Energy consumption.....none
Description.....roller valley
Options.....none

Elastic Maze AF 62

Material.....rubber
Weight.....50 kg
Dimensions.....3000x1000x2500
Energy consumption.....none
Description.....elastic maze
Options.....none

Soft Punch Barrels AF 67

Material.....PVC
Weight.....20
Dimensions.....1000x300x300
Energy consumption.....none
Description.....soft punch barrels
Options.....color

Squeeze Walls AF 63

Material.....nylon & PVC
Weight.....100 kg
Dimensions.....3000x1500x2500
Energy consumption.....none
Description.....squeeze walls
Options.....none

Swinging Platform AF 68

Material.....steel
Weight.....110 kg
Dimensions.....3000x650x300
Energy consumption.....0,35 kW
Description.....swinging platform
Options.....none

Roller Path AF 64

Material.....steel
Weight.....110 kg
Dimensions.....3000x650x300
Energy consumption.....none
Description.....roller path
Options.....none

Platform: “Pattern” AF 69

Material.....steel
Weight.....110 kg
Dimensions.....3000x650x300
Energy consumption.....none
Description.....water stepping pods
Options.....none
